YHWH's Holy days for 2027

The calendar is calculated to the new moons on Jerusalem time.

1st month - Day one starts sundown of April 7th
- **Passover Meal** - Begins the sunset of Wednesday, April 21st
- **Feast of Unleavened Bread** - Begins at sundown, Wednesday, April 21st
- **First Fruits** - Begins at sundown, Saturday, April 24th
- **Feast of Unleavened Bread** - ***Ends*** at sundown, Wednesday, April 28th

2nd month - Day one starts sundown of May 6th
- **2nd Passover Meal** - Begins the sunset of Thursday, May 20th
- **2nd Feast of Unleavened Bread** - Begins at sundown, Thursday, May 20th
- **2nd Feast of Unleavened Bread** - ***Ends*** at sundown, Thursday, May 27th

(2nd Passover is provided for those who miss the first. - Num.9:6-12 / 2 Chr. 30)

3rd month - Day one starts sundown of June 5th
- **Shavuot / Pentecost** - Begins at sundown, Saturday, June 12th

4th month - Day one starts sundown of July 4th

5th month - Day one starts sundown of August 2nd

6th month - Day one starts sundown of September 1st

7th month - Day one starts sundown of September 30th
- **Day of Trumpets** - Begins at sundown, Thursday, September 30th
- **Day of Atonement** - Begins at **sunset**, Saturday, October 9th *(Lev. 23:32)*
- **Sukkot** - Begins at sundown, Thursday, October 14th
- **Sukkot** - ***Ends*** at sundown, Friday, October 22nd

8th month - Day one starts sundown of October 29th

9th month - Day one starts sundown of November 28th

10th month - Day one starts sundown of December 28th

11th month - Day one starts sundown of January 26th *(2028)*

12th month - Day one starts sundown of February 25th *(2028)*

Non-commanded days:

- *Purim - Begins at sundown, Sunday, March 21, 2027*
- *Hanukkah - Begins at sundown, Tuesday, Dec. 21, 2027*

Terms:

- *Sunset - Sun drops below horizon*
- *Sundown - No sunlight in the sky*

Evening begins when the sun is below the horizon. The day begins when there is no light in the sky.

How to calculate the calendar.

1) *A year begins at the first new moon **after** the vernal equinox.*
2) *A month starts at the sundown **after** the lunar conjunction.*
